This beautiful port city and capital of the Nagasaki Prefecture is located on the island of Kyushu. A Japanese trading hub for centuries, Nagasaki, along with Hiroshima, was destroyed by an atomic bomb in World War II. Today, visitors are strongly encouraged to see the Nagasaki Peace Park, which commemorates the tragedy. Other key sights include Hashima Island, an abandoned island off of the city's coast, the mansion-dotted open air park Glover Garden, and Mount Inasa, offering majestic night views. For a truly unique experience, visit Huis Ten Bosch, a theme park that is a replication of a Dutch village.

The gateway to Seoul, the port of Incheon has served as the capital city's link with China and the world since the 5th century.

Seoul has risen from the ashes of the Korean War to become a thriving, modern metropolis. Much of the impetus behind the city's reconstruction was its selection as host to the 1988 Summer Olympic Games.

Despite its modern-day buildings and sophisticated subway system, remnants of Seoul's 600-year history can still be seen today. Its many surviving structures, royal palaces and temples provide a fascinating peek into Korean history, culture and ancient way of life.
